

Sara Ahmad Malik

+92-3125106212 | sarahahmadmalik55@gmail.com | [LinkedIn](#) | [Github](#)

Summary

A highly motivated Full-Stack Developer with foundational experience in Artificial Intelligence, Machine Learning, and Computer Vision through academic research projects. Proficient in developing web applications using React, Next.js, and Python. Demonstrates a strong commitment to furthering expertise in AI/ML and contributing to cutting-edge research.

Technical Skills

- Python
- TensorFlow / PyTorch / Scikit-learn
- Java / C#
- OpenCV
- ReactJs / NextJs
- MYSQL / SQL Server / MongoDB / DynamoDB
- AWS Amplify
- NodeJs / ExpressJs
- Git / GitHub
- Network Protocols

Soft Skills

- Communication
- Collaboration and Team work
- Critical Thinking
- Time Management
- Adaptability

Experience

Fiverr

Freelancing

Sep 2022 – Present

- Developed and implemented tasks across Machine Learning, Programming, Mobile App, and Web Development.
- Analyzed and resolved detection and classification problems within Machine Learning projects.
- Interpreted client requirements and translated them into technical specifications using the Software Development Lifecycle (SDLC).
- Executed over 50 projects across AI, Mobile Apps, Web Apps, and Programming, while collaborating with a diverse freelance team, including developers, UI/UX designers, and AI/ML engineers to ensure comprehensive project delivery.

MRS Technologies, Islamabad, Pakistan

Front-end Developer Intern

Jun 2024 – Jul 2024

- Led the development of a SaaS-based MVP, enhancing user experience and interface functionality.
- Built a scalable frontend using Next.js and Tailwind CSS, aligning with FIGMA design standards.
- Integrated GraphQL and AWS Amplify Gen2 to optimize backend connectivity and enable real-time interactions.
- Collaborated with backend engineers and UI/UX designers, contributing to domain purchasing and the official launch of the MVP.
- Led scrum meetings to ensure project milestones were met and team coordination was maintained.

ZySoftec, Islamabad, Pakistan

Web Developer Intern

Jul 2023 – Sep 2023

- Utilized Next.js and Tailwind CSS to engineer dynamic, responsive, and high-performance web applications.
- Collaborated with frontend, backend, and QA engineers to develop and maintain stable and user-centric websites.
- Transformed FIGMA designs into high-quality, dynamic, and responsive web interfaces.
- Achieved "Employee of the Month" recognition for spearheading successful project outcomes and effective product maintenance.

Education

University of Engineering and Technology, Taxila
Bachelor of Science – Computer Science

Nov 2021 - Present

- Merit Scholarship holder, GPA: 3.91

Projects

- **Plant Leaf Disease Detection Using Deep Learning Techniques (Group Project)**
Developed Leaf disease detection system to detect and classify plant leaf diseases with 95.47% accuracy, leveraging MobileNet for lightweight model architecture.
Tech Stack: Python, TensorFlow, Keras, OpenCV, MobileNet, Streamlit
- **Fashion and Home Décor Recommendation System using ResNet50 (Group Project)**
Built a recommendation system for fashion and home décor, providing personalized suggestions using ResNet50 and traditional machine learning techniques
Tech Stack: Python, TensorFlow, Keras, OpenCV, ResNet50, Scikit-learn, Streamlit
- **Plant Leaf Disease Detection using Traditional CNN**
Implemented a traditional CNN model with 90.86% accuracy for detecting plant diseases, utilizing OpenCV for image preprocessing and TensorFlow for model training.
Tech Stack: Python, TensorFlow, Keras, OpenCV, Scikit-learn
- **Customer Support Chatbot**
Developed a chatbot using React and Node.js, integrated with Dialogflow to automate customer support and enhance interaction efficiency and user experience.
Tech Stack: React, Node.js, Dialogflow, NLP
- **Rezlinks.com – Resume Sharing Platform**
Developed a responsive web platform for sharing resumes, utilizing AWS Amplify for serverless backend operations and seamless scalability.
Tech Stack: Next.js, Tailwind CSS, AWS Amplify
- **PropyMGMT – Property Management Solutions**
Built a property management system to automate listings, tenant management, and payment tracking, with a focus on scalability and ease of use.
Tech Stack: Next.js, Tailwind CSS, MYSQL
- **Study Beats – Online Music Platform**
Created an online music platform for productivity, offering seamless music streaming and personalized playlists to enhance focus.
Tech Stack: MongoDB, Express, Node.js, Tailwind CSS
- **Maglo.net – Ship Spare Part Website**
Engineered a ship spare part platform to streamline search, inventory management, and order processing, ensuring smooth user interaction and performance
Tech Stack: Next.js, Tailwind CSS

Achievements

- 5th Position Holder in Huawei ICT Competition Middle East and Central Asia National Finals.
- Merit Scholarship Holder.
- Employee of the Month at ZySoftec.

Certifications

- **Google Cloud Computing Certification**
Google – 2024
- **Introduction to Generative AI Completion Badge**

- Google – 2024
- **Introduction to AI and Machine Learning on Google Cloud Completion Badge**
Google – 2024
- **HCIA Datacom**
Huawei – 2023

- **Frontend Development with React**
Coursera – 2022
- **React Basics and Advanced**
Meta - 2022
- **Introduction to JavaScript**
Meta – 2022

Volunteer Work

- | | |
|--|----------------------------|
| General Secretary, Google Developer Student Club (GDSC) UET Taxila Chapter | Dec 2023 - Present |
| <ul style="list-style-type: none"> Organized and managed various technical sessions at the university. | |
| Assistant Director of Media Team, COMPTECH UET Taxila | Sep 2023 – Sep 2024 |
| <ul style="list-style-type: none"> Created social media posters and managed various society events. | |
| Executive Member, COMPTECH UET Taxila | Oct 2022 – Sep 2023 |
| <ul style="list-style-type: none"> Contributed to organizing and promoting events and initiatives within society. | |

Other Activities

- Participated in the **IEEE PES Bootcamp on Freelancing**, developing skills in client management and freelance project execution.
- Competed in the **Debugging Competition at VisioSpark'23**, organized by COMSATS University, demonstrating problem-solving and technical debugging expertise.
- Participated in the **Bug Catcher Competition at Nas'con 2022** by FAST University, enhancing proficiency in code analysis and error identification.
- Participated in the **Cloud Seekho Challenge 2023** by Google Developer Groups Islamabad, exploring cloud computing concepts and application deployment strategies.

Research Interests

- Advanced Machine Learning Techniques
- Computer Vision and Image Analysis
- Software Development and Integration of AI Solutions
